Dear Applicant:

The staff has under consideration the above-captioned application for a new AM station to be located at Santa Clara, Utah, and the December 2, 2008, amendment.

Further engineering review of the application, as amended, reveals that the proposed nighttime interference free ("NIF") contour of 17.22 mV/m does not cover 80% of Santa Clara, Utah, in violation of Section 73.24(i) of the Commission's rules.¹ (See attached exhibit)

Accordingly, further action on the subject application will be withheld for a period of thirty (30) days from the date of this letter to provide you an opportunity to submit an amendment. Failure to respond within this time period will result in the dismissal of the application pursuant to 47 C.F.R. § 73.3568. Please note that any amendment must be submitted in the same manner as the original application.

Sincerely,

Son Nguyen, Supervisory Engineer
