In re: KQXE(FM), Eastland, TX  
CSSI Non-Profit Educational  
Broadcasting Corp.  
Facility ID No. 89692  
BPED-20110124AAW

Dear Applicant:

This letter is in reference to the above-captioned application to modify the transmitter location, effective radiated power, height above average terrain ("HAAT"), and radiation center above ground level.

An engineering study of the application reveals that it is in violation of 47 C.F.R. § 73.509 with respect to first-adjacent Class C license (BLED-20090206AAM) for KDKR(FM), Decatur, TX. Specifically, the proposed protected contour (60 dBu) will receive prohibited overlap from KDKR's interfering contour (54 dBu) by as much as 5 kilometers between the azimuths of 40°T to 87°T. This violation constitutes an acceptance defect.<sup>1</sup>

In light of the above, Application BPED-20110124AAW is unacceptable for filing pursuant to 47 C.F.R § 73.3566(a) and is HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R § 0.283.

Sincerely,

Edna V. Prado  
Supervisory Engineer  
Audio Division  
Media Bureau

cc: Gary L. Graham, Engr.

---

<sup>1</sup> The application proposes to use a tower located at 32° 28' 37.5" NL, 98° 48' 35" WL (NAD 27) and with a site elevation of 499 meters. However, the tower registration record (ASRN 1052233) specifies coordinates 32° 28' 37.5" NL, 98° 48' 34" WL (NAD 27) and a site elevation of 489 meters. In addition, the 1mV/m contour reference distance exceed the Class C3 limitation of 39 kilometers.
