In re: WKSG(FM), Cedar Creek, FL
Daystar Public Radio, Inc.
Facility ID No.: 9714
BPED-20110223ACH

Dear Applicant:

This letter is in reference to the above-captioned minor change application for noncommercial educational FM Station WKSG(FM) to change the transmitter location, effective radiated power and antenna height.

The proposal would cause prohibited contour overlap to the licensed facility (File No. BLED-20090305AFX) and the authorized construction permit facility (BPED-20091210ADS) of first adjacent channel Class A FM Station WKFA(FM), St. Catherine, Florida (Facility ID No.: 89697) on Channel 207. Specifically, the proposed 54 dBu interfering contour would overlap the 60 dBu protected contours of Station WKFA's licensed and construction permit facilities by approximately 1 kilometer. This overlap is in violation of 47 C.F.R. § 73.509(a).

Accordingly, Application File No. BPED-20110223ACH IS HEREBY DISMISSED, pursuant to 47 C.F.R. § 73.3566(a), as unacceptable for filing.¹ This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

Arthur E. Doak

Arthur E. Doak
Senior Engineer
Audio Division
Media Bureau

cc: Mr. Randy Henry

¹ We note that WKSG holds a granted construction permit (File No. BPED-20090908AAH). Until that construction permit is either licensed or cancelled, any future applications for a construction permit should be filed as a modification of that construction permit.
