Re: Tom F. Huth
KOBO(AM), Yuba City, California
Facility Identification Number: 17408
Construction Permit: BP-20070103AEZ
License Application: BL-20110215AFI
Program Test Authority ("PTA")

Dear Mr. Kelly:

This is in reference to the above-captioned license application and the PTA request of Tom F. Huth to cover Construction Permit BP-20070103AEZ for station KOBO(AM).

Authority is granted KOBO(AM) to conduct daytime and nighttime program tests in accordance with construction permit BP-20070103AEZ and 47 C.F.R. §73.1620 to operate on 1450 kHz with a daytime nominal power of 160 watts and a nighttime nominal power of 500 watts. Program tests are authorized with a daytime antenna input power of 160 watts (antenna input current of 1.62 amperes) and a nighttime antenna input power of 500 watts (antenna input current of 2.8 amperes).

A preliminary engineering study of the application reveals that condition #2 of the construction permit was not fulfilled as a signed agreement between the two co-located stations KOBO(AM) and KUBA(AM) was not included in the application. In addition, the nighttime antenna current in Item 8 of the FCC Form 302-AM must be amended to 2.86 amperes, and the antenna coordinates in Item #9 must be amended from to 39°08'22" North Latitude **122°39'19" West Longitude** to 39°08'22" North Latitude **121°39'19" West Longitude**.

Accordingly, further action on the subject application will be withheld for thirty (30) days from the date of this letter in order to provide Tom F. Huth an opportunity to file a curative amendment. Failure to respond or file an amendment within this time period will result in the dismissal of the application pursuant to 47 C.F.R §73.3568.

Sincerely,

Son Nguyen
