Re: Entercom Portland License, LLC
KKSXN(AM), Vancouver, Washington
Facility Identification Number: 35033
File Number: BMP-20101213AAR

Dear Applicant:

This letter refers to the above-captioned application for a minor modification of station KKSXN(AM), Vancouver, Washington.

An engineering review of the application reveals that the proposed daytime operation would increase the existing groundwave contour overlap to first-adjacent channel station KSHO(AM), Lebanon, Oregon, in violation of Section 73.37(a) of the rules. This finding is based on all available measurement data submitted in the application (See attached Exhibits).

Accordingly, further action on the subject application will be withheld for a period of thirty (30) days from the date of this letter to provide you an opportunity to submit an amendment. Failure to amend or respond within this time period will result in the dismissal of the application pursuant to Section 73.3568. Please note that any amendment must be submitted in the same manner as the original application.

Sincerely,

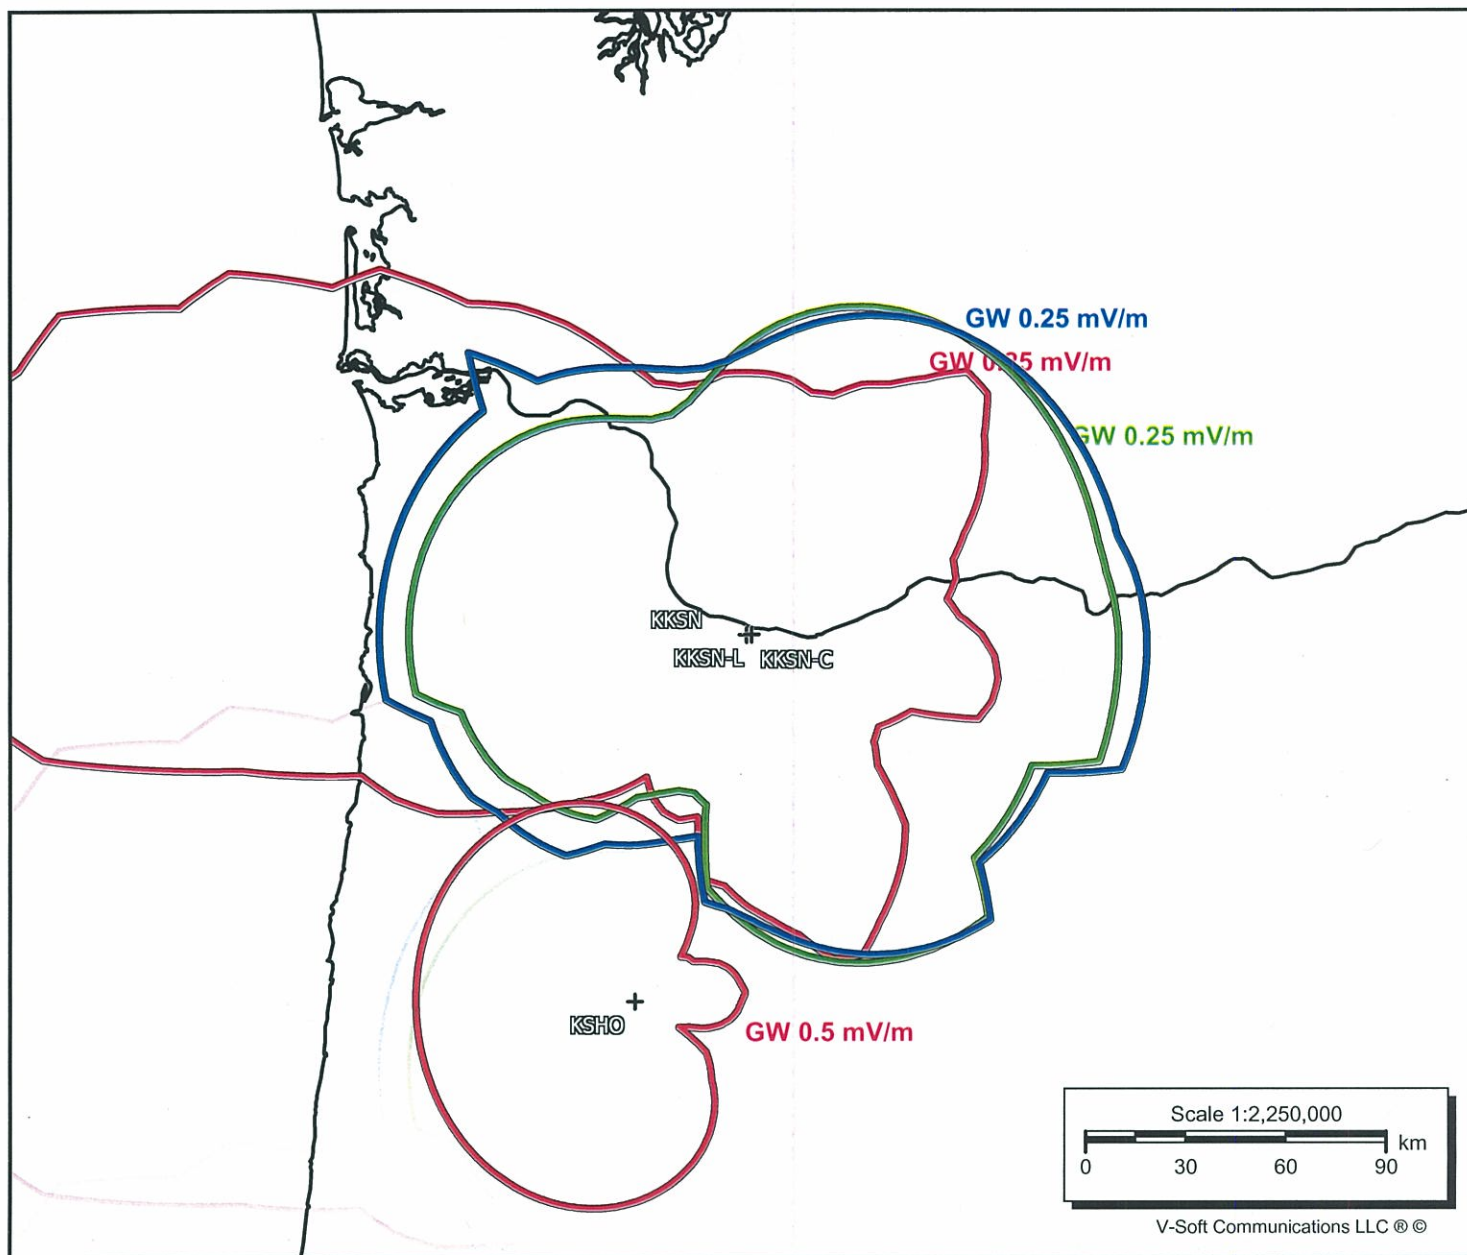

Son Nguyen
Supervisory Engineer
