Re: KDEE-LP, Sacramento, CA  
Facility ID No. 123915  
California Black Chamber of Commerce  
File No. BPL-20101014AAN

Dear Applicant:

This letter refers to the above-captioned application for a minor change to a licensed facility and the Informal Objection filed on November 18, 2010 by Entercom Sacramento License, LLC.

An engineering study has revealed that the proposed transmitter site specified in the application fails to meet the minimum spacing requirements of 47 C.F.R. § 73.807 in relation to third-adjacent channel license, BLH-19990714KC, for station KSEG(FM), Sacramento, CA. The required separation is 67 kilometers, whereas the separation proposed is 24 kilometers.<sup>1</sup> Also, the application fails to meet the minimum spacing requirements of 47 C.F.R. § 73.807 in relation to first-adjacent channel translator application, BNPFT-20030317DXO, in Roseville, CA. The minimum required separation is 15 kilometers, whereas the separation proposed is 9 kilometers.

Accordingly, in light of the above, application BPL-20100218ACQ is unacceptable for filing and IS HEREBY DISMISSED. Additionally, the Informal Objection filed November 18, 2010 by Entercom Sacramento License, LLC is DISMISSED as MOOT. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

Edna V. Prado  
Supervisory Engineer  
Audio Division  
Media Bureau

cc: Carrie Ward

<sup>1</sup> KDEE-LP's application proposes to change operation from channel 249L1 to channel 248L1. However, the channel change will create a new short-spacing to KSEG.
