Re: WLAY(AM), Muscle Shoals, Alabama
Facility Identification Number: 60611
Urban Radio Communications, LLC
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed February 7, 2011, on behalf of Urban Radio Communications, LLC ("URC"). URC requests extension of the special temporary authority ("STA") granted on August 6, 2010, to operate Station WLAY from a site other than the licensed site. In support of the request, URC states that it has lost the lease and access to the licensed site. URC states that it continues the process of seeking a new, permanent site for the station.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made progress toward restoration of licensed operation, but additional time is required for completing the work. Thus, extension of STA is warranted. Our review further indicates that Station WLAY has been silent since June 28, 2010, and thus faces the loss of its license if it does not resume broadcasting on or before June 28, 2011.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WLAY may operate with the following facilities:

| | |
|-------------------------|--|
| Geographic coordinates: | 34° 44' 13" N, 87° 42' 15" W (NAD 1927) |
| Frequency: | 1450 kHz |
| Hours of operation: | Unlimited |
| Operating power: | Not to exceed 1 kilowatt |
| Antenna type | Existing STL tower with vertical wire feed |
| Radiator height: | 63.7° (36.6 meters) |

Antenna efficiency: 288.6 mV/m/km/kW
Overall height 36.6 meters

It will be necessary to reduce power or cease operation if complaints of interference are received. URC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **October 11, 2011**.

Notwithstanding the grant of this STA or the expiration date specified herein, the station's license will expire as a matter of law upon twelve consecutive months of silence. See Pub. Law No. 104-104, 110 Stat. 56, Section 403(1) (1996) and *Order, Silent Station Authorizations*, FCC 96-218 (released May 17, 1996). See also *Public Notice, Expedited Processing of Applications Filed by Silent Stations*, DA 96-818 (May 22, 1996). The licensee must notify the Audio Division immediately upon resumption of broadcasting.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles N. Miller".
