In re: WKSG(FM), Cedar Creek, FL  
Facility ID# 9714  
Daystar Public Radio, Inc.  
BMPED-20110324ACJ

Dear Applicant:

This letter refers to the above-captioned minor change application to modify the effective radiated power, antenna height, and location.

An engineering study of the application reveals that it is in violation of 47 C.F.R. § 73.316(a). Specifically, the application proposes vertical polarization only. Pursuant to 47 C.F.R. § 73.316(a), it is standard to employ horizontal polarization.<sup>1</sup> Section 73.316 further states that the supplemental vertically polarized ERP required for circular or elliptical polarization shall not exceed the ERP authorized.<sup>2</sup> Accordingly, the application is in violation of § 73.316(a) and is unacceptable for filing.

In light of the above, Application BMPED-20110324ACJ is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and is HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

Rodolfo F. Bonacci  
Assistant Chief  
Audio Division  
Media Bureau

cc. Randy Henry

---

<sup>1</sup> Section 73.525 of the Commission's rules (47 C.F.R. § 73.525) makes an exception for FM stations that are required to protect a TV Channel 6 station. However, no TV Channel 6 stations are within the required protection distances of the proposed facility as specified in § 73.525. Therefore, the application is not eligible for this exception.

<sup>2</sup> This application proposes no horizontal effective radiated power.
