Re: KXPC-FM, Lebanon, Oregon
Facility Identification Number: 61987
Educational Media Foundation
Special Temporary Authorization

Dear Counsel:

This is in reference to the request filed May 24, 2011, on behalf of Educational Media Foundation ("EMF"). EMF requests modification of the special temporary authority ("STA") granted on March 29, 2011, for operation of Station KXPC-FM with temporary facilities.¹

In support of the request, EMF states that the antennna elevation proposed in its initial STA request would adversely affect other antennas mounted on the tower. EMF requests modification of STA to reduce the antenna height.

STA requests which involve a change in transmitter site must include four critical elements: (1) Loss of the licensed site must be beyond the licensee's control; (2) STA facilities must continue to provide service² to the licensed community; (3) STA facilities must maintain, as closely as practicable, the licensed service area³ without extending it; (4) STA facilities cannot involve the construction of towers intended for permanent use by the station requesting the STA. Our review indicates that the proposed modified STA operation complies with the foregoing criteria.

¹ KXPC-FM is licensed to Lebanon, Oregon, for operation on Channel 279C (103.7 MHz) with effective radiated power ("ERP") of 90 kilowatts (H&V) and antenna height above average terrain ("HAAT") of 624 meters. Application BPED-20110302ACD proposes relocation of the station to Harrisburg, a downgrade to Class C0, relocation of the transmitter and operation with ERP of 100 kW and HAAT of 310 meters.

² For AM - 5 mV/m; for commercial FM - 3.16 mV/m; for noncommercial educational FM - 1.0 mV/m.

³ For AM - 0.5 mV/m contour; for FM - 1.0 mV/m contour.

Accordingly, the request for modification of STA IS HEREBY GRANTED. Station KXPC-FM may operate with the following facilities:

Geographic coordinates:	44° 28' 59" N, 122° 34' 55" W (NAD 1927)
Channel	279 (103.7 MHz)
Effective radiated power:	1.45 kilowatts (H&V)
Antenna height:	
above ground:	26 meters
above mean sea level:	1233 meters
above average terrain:	729 meters

EMF must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

Notwithstanding the grant of this STA or the expiration date specified herein, the station's license will expire as a matter of law upon twelve consecutive months of silence. *See* Pub. Law No. 104-104, 110 Stat. 56, Section 403(1) (1996) and *Order, Silent Station Authorizations*, FCC 96-218 (released May 17, 1996). *See also Public Notice*, Expedited Processing of Applications Filed by Silent Stations, DA 96-818 (May 22, 1996). The licensee must notify the Audio Division immediately upon resumption of broadcasting.

This authority expires on **November 25, 2011**.

Sincerely,

Charles N. Miller, Engineer
Audio Division
