Minor change application BPED-20070518AAY

Dear Applicant:

Your minor change construction permit application for KXPR (FM), file number BPED-20070518AAY, was last amended to correct coordinates on February 10, 2010. The amendment indicated that notification was filed with the FAA for this proposed structure. Fifteen months later, the proposed tower still requires FAA clearance and (once cleared) registration of the tower structure with the FCC. We do not find any record of filing with the FAA for the proposed structure at the specified site, and more than enough time has elapsed for the FAA to rule on any proposal placed before it. Nor has the applicant provided any update since the filing of the February 10, 2010 amendment.

Accordingly, application BPED-20070518AAY IS DISMISSED for failure to prosecute, pursuant to 47 CFR Section 73.3568(a)(1).

Sincerely,

Dale E. Bickel
