In re: Low Power Television Application of:
Harvest Ministries International
Channel 43, Milton, FL.
File No.: BMPDTL-20110318AAI
WGOX-LP - Facility Id No.: 130457

Dear Applicant:

The licensee as addressed above was sent a 30 day deficiency letter on April 20, 2011, outlining the following protected contour issue:

Our preliminary engineering review reveals that the proposed facility protected contour does not overlap with the protected contour of the licensed facility file number BLTTL-20080530ABQ. The contours as referenced above must overlap in order for the proposed modification to be considered as a Minor Change.

You were given the opportunity to file a minor amendment to resolve the specified protected contour problem within (30) days from the date of that letter. Amendments must be filed electronically. If not so amended, your application will be considered incomplete and subsequently dismissed.

Our records show that no amendment has been filed as of June 2, 2011, to resolve the above protected contour issue; therefore, the above referenced application is considered incomplete and IS HEREBY DISMISSED.

Sincerely
