Re : *In the matter of application BMPED-20090825BES Petition For Reconsideration*

Dear Sir,

This letter requests termination of the Petition For Reconsideration. The applicant believed it had already been acted on and denied and a request concerning the application received no response.

Staff indicated today's date that a letter to notify your office of the termination of the Petition for Reconsideration should be supplied. This will allow the Licensee to modify its antenna system to change out a defective antenna. This letter is to request this action.

The affected station has an antenna that has problems and needs to modify the

facility. Expedited processing is requested. It is requested any problems with the amendment be directed to me, if any exist.

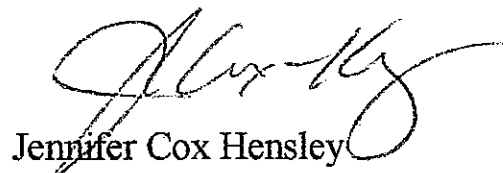

If there are further questions or if Staff wishes to discuss the matter I can be reached at 317 467-1064.

Sincerely,

Martin Hensley
