

FEDERAL COMMUNICATIONS COMMISSION Washington, D.C. 20554

August 1, 2011

Quinn River TV Maintenance District P.O. Box 158 Orovada, NV 89425-0158

> Re: K54DQ, Fac ID.: 54292 K52DV, Fac ID.: 54293 K58DZ, Fac ID.: 54298 K60AP, Fac ID.: 54300 K62EL, Fac ID.: 54307

Dear Licensee:

This letter is to notify you that the Federal Communications Commission (Commission) has adopted rules to clear low power television (LPTV) and TV translator stations off of the 700 MHz band (television channels 52-69). *See* FCC 11-110, released July 15, 2011, a copy of which is available at the Commission's web site – <u>www.fcc.gov</u>. First, the Commission has set **December 31, 2011** as the deadline by which all 700 MHz band LPTV and TV translator stations (both analog and digital) must discontinue the use of 700 MHz channels. Second, the Commission has set **September 1, 2011** as the date by which all LPTV and TV translator stations in the 700 MHz band must submit a displacement application to specify a new "in-core" channel (channels 2-51 excluding channel 37) if they have not already done so. Our records indicate that you are the licensee of a 700 MHz band LPTV or TV translator station and you have not filed a displacement application for an in-core channel. We encourage you to file a displacement application for an in-core channel as soon as possible and not later than **September 1, 2011**. Failure to do so will result in the loss of your station authorization.

If you no longer possess a valid authorization for your 700 MHz band station, if you do not plan to move to an in-core channel, or if you plan to discontinue operating your 700 MHz band station on or before December 31, 2011, we encourage you to notify the Commission staff of your plans by emailing Hossein Hashemzadeh at <u>Hossein.Hashemzadeh@fcc.gov</u>.

If you plan to submit a displacement application and experience any difficulties in preparing, filing or prosecuting your application, please contact the Commission staff - Hossein Hashemzadeh, <u>Hossein.Hashemzadeh@fcc.gov</u> (technical) or Shaun Maher, <u>Shaun.Maher@fcc.gov</u> (legal) at 201-418-1600.

We appreciate your efforts to help clear the way for new uses on the 700 MHz band including the deployment of additional mobile broadband facilities.

Very truly yours,

Hasher uck Ì

Hossein Hashemzadeh Deputy Chief, Video Division Media Bureau
