Facility ID Number: 21533

Gentlemen:

This refers to your request dated June 7, 2011, for special temporary authority (STA) to operate at reduced effective radiated power (ERP). You point out that in order to minimize interference to the land mobile operations, the station needs to reduce its operating power by thirty percent from 40 kW ERP to 12 kW ERP. You indicate that reduced power operations will continue to be necessary while the applicant is trying to permanently resolve these issues.

In light of the above, special temporary authority pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules until January 25, 2012 IS GRANTED.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

Kevin R. Harding
Associate Chief
Video Division
