Gentlemen:

This refers to your request dated May 11, 2011, for special temporary authority (STA) to operate at reduced effective radiated power (ERP) of 360 kW. You point out that the Station is in process of changing its channel from the current channel 28 to channel 9. You indicate that reduced power operations will continue to be necessary while the applicant is trying to construct the channel 9 facility.

In light of the above, special temporary authority pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules until November 12, 2011 IS GRANTED.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

Kevin R. Harding
Associate Chief
