Subject: Concerning KFLA-LD STA Request BSTA-20110826AAB

Mohammad,

Thank you for notifying us of the errors in Roy Mayhugh's pending STA request BSTA- 20110826AAB for KFLA-LD. Mr. Mayhugh has authorized me to request dismissal of the pending STA request. Also, please be advised that Mr. Mayhugh does not intend to operate KFLA-LD under the parameters authorized by BSTA-20110808AAA, which was granted on 8/16/2011. Thus, it is respectfully requested that BSTA-20110808AAA be canceled at this time.

After careful consideration, Mr. Mayhugh believes the public will be better served by continuing current operations of KFLA-LD on Ch 52 until he can return KFLA-LD to ch 8 at the full 3 KW ERP level. Accordingly, Mr. Mayhugh plans to file today a request for extension of BSTA-20110228ACH authorizing operation of KFLA-LD on channel 52 , which is currently due to expire on September 4, 2011. This will allow him additional time to correct and re-file an STA request for operation on Channel 8 at 3 KW ERP. He expects to work on that and file it within the next 30 days, and be prepared to initiate operations on those facilities upon the grant of the STA.

Respectfully Submitted,

Darryl DeLawder, Consulting Engineer to Roy Mayhugh
