Re: Sunburst Media-Louisiana, LLC KXMG(FM), Houma, Louisiana Facility Identification Number: 25520 Special Temporary Authority

Dear Counsel:

This is in reference to the request filed October 6, 2011, on behalf of Sunburst Media-Louisiana, LLC ("SML"). SML requests modification of the special temporary authority ("STA") granted on August 10, 2011, to operate Station KXMG with temporary facilities.<sup>1</sup> In support of the request, SML states that a mounting issue arose during construction of the STA facilities which necessitates mounting the antenna 10 feet higher than originally proposed. SML requests modification in effective radiated power.

Our review indicates that the proposed, modified STA would continue to comply with Section 73.1615 and our STA policies.

Accordingly, the request for modification of STA IS HEREBY GRANTED. Station KXMG may operate with the following facilities:

Geographic coordinates: Channel Effective radiated power:	29° 57′ 14″ N, 89° 56′ 58″ W (NAD 1927) 298 (107.5 MHz) 9.8 kilowatts (H&V)
Antenna height:	
above ground:	276 meters
above mean sea level:	277 meters
above average terrain:	277 meters
ASRN	1022410

<sup>&</sup>lt;sup>1</sup> KXMG is licensed to Houma, Louisiana, for operation on Channel 298C1 (107.5 MHz) with effective radiated power ("ERP") of 69 kilowatts (H&V) and antenna height above average terrain ("HAAT") of 198 meters. Construction Permit BPH-20070119ABG authorizes a change in the community of license to Jean-Lafitte, relocation of the transmitter, an increase in ERP to 100 kW (Max-BT, H&V) and an increase in HAAT to 299 meters.

SML must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. The authority granted herein is without prejudice as to the Commission's final action with regard to Construction Permit BPH-20070911ABG. Any construction undertaken pursuant to this authority is entirely at SML's own risk.

This authority expires on April 7, 2012.

Sincerely,

Charles N. Miller, Engineer Audio Division Media Bureau
