This e-mail is in response to your license application BLED-20050615ACJ, which requests the grant of automatic program test authority for KHFR (FM), Santa Maria, CA. You include exhibits to show that the RF condition on construction permit BPH-19970626ME will be satisfied, and that the directional antenna conditions on the construction permit are also satisfied. I have reviewed the exhibits and agree with your conclusions.

Consequently, by this e-mail, program test authority IS GRANTED to permit KHFR (FM) to operate at an effective radiated power of 2.45 kW ERP (vertically polarized) with the facilities authorized in construction permit BPED-19970626ME.

This authorization is being sent by e-mail in lieu of a letter for the same purpose in order to get this authority to you as soon as possible. Please print a copy of it and keep it with the station's records. The grant of this program test authority will also be noted in the FCC's CDBS database.
