In re: K288CX, Albuquerque, NM  
BPFT-20110912AAN  
Facility ID # 8825

Dear Applicant:

This refers to: (1) the above-captioned application for K288CX, Albuquerque, New Mexico.

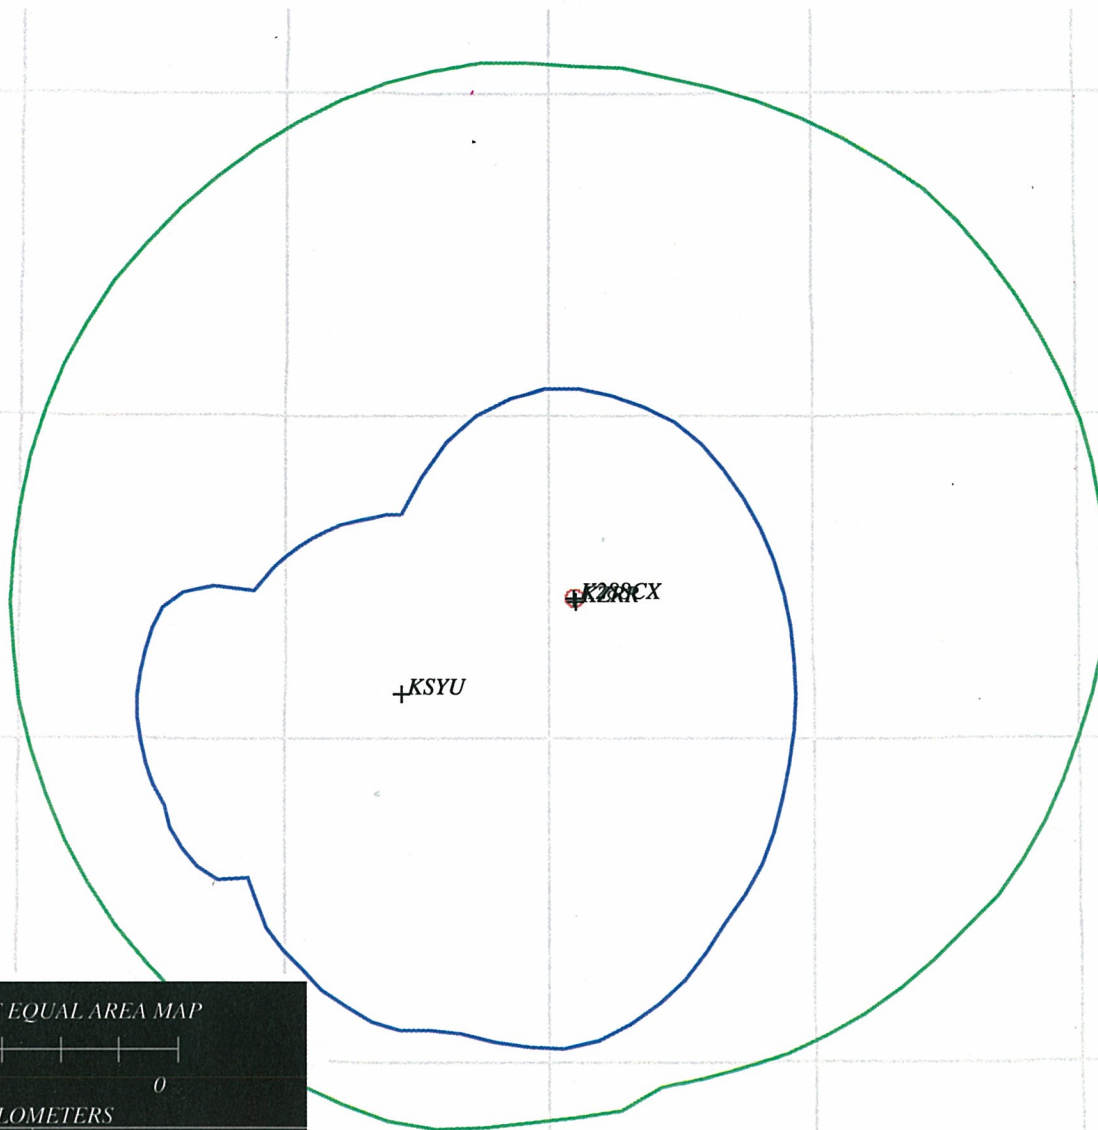

An engineering study has revealed the application violates 47 C.F.R. § 74.1204(a) with respect to KZRR(FM), Albuquerque, NM (BLH-7522) and KLQT(FM), Corrales, NM (BMLH-20050318ACD). Section 74.1204(a) states that an application for a FM translator station will not be accepted if the proposed operation would involve prohibited overlap of predicted field strength contours with any other authorized station. The proposed 100 dBu interference contour overlaps with the 60 dBu protected contours of KZRR(FM) and KLQT(FM).

In light of the above, the application BPFT-20110912AAN filed by Carl Brasher is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw  
Deputy Chief  
Audio Division  
Media Bureau

No topographic data is available for this location.

A1 - Number of radials where free space equation was used for field strength calculations.

A7 - Number of radials where a HAAT less than 30 meters was adjusted to 30 meters.
