Re: WYMM (AM), Jacksonville, Florida  
Facility Identification Number: 11127  
Word Broadcasting Network, Inc.  
Special Temporary Authority

Dear Mr. Fawbush:

This is in reference to the request filed August 17, 2011, on behalf of Word Broadcasting Network, Inc. ("WBN"). WBN requests further extension of the special temporary authority ("STA") granted on July 21, 2010, to operate Station WYMM with reduced power.<sup>1</sup> In support of the request, WBN states that it continues its efforts to complete repairs to the station's damaged transmission line and associated equipment.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made progress toward restoration of licensed operation, but additional time is required for completing the work. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WYMM may continue to operate with reduced power. It will be necessary to further reduce power or cease

<sup>1</sup> WYMM is licensed for operation on 1530 kHz with 50 kilowatts, daytime hours only, employing a directional antenna (DA-D-D).

operation if complaints of interference are received. WBN must notify the Commission when licensed operation is restored.<sup>2</sup> WBN must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **May 4, 2012**.

Sincerely,

Charles N. Miller, Engineer
