Dear Ms. Withrow:

This is in response to your April 20, 2011 letter responding to the staff's March 24, 2011 letter requesting information regarding station KTVV-LP's compliance with the Commission's childrens programming rules. In your letter, you request a change in status for the station from Class A to low power television. Please be informed that we have changed the status of the station as requested and that no further action is required by you.
