Re: KSLC(FM), McMinnville, Oregon
Facility Identification Number: 37731
Linfield College
Request for Increased Digital Power
Hybrid IBOC Digital Operation

Dear Mr. Huntsberger:

This is in reference to the request filed November 15, 2011, on behalf of Linfield College ("LFC"). LFC requests authority to operate Station KSLC with increased digital effective radiated power ("ERP") of -10 dBc¹, pursuant to the Media Bureau's *Order* adopted January 27, 2010, in MM Docket No. 99-325 ("*Order*").

Our review indicates that the notification requirements of the *Order* have been satisfied, and that the proposed operation complies with the contour nonoverlap and other technical requirements of the *Order*.

Accordingly, the request IS HEREBY GRANTED. Station KSLC may operate with increased digital ERP and transmitter power output ("TPO"), as follows:

Analog ERP:	0.75 kW (Max-DA, H&V)
Digital ERP:	0.075 kW (Max-DA, H&V)
Analog TPO:	0.398 kW
Digital TPO:	0.0398 kW

LFC must use whatever means are necessary to protect workers and the public from exposure to

¹ decibels relative to analog carrier

radio frequency radiation in excess of the Commission's exposure guidelines; *See* 47 CFR § 1.1310. It may be necessary to reduce the power of the digital signal or cease hybrid operation if interference complaints are received. This authority may be modified or cancelled by the Commission without notice or right to hearing. This authority attaches to, and runs concurrently with, the main station license. LFC must post a copy of this authority with the station license.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles N. Miller". The signature is fluid and cursive, with a long horizontal stroke at the end.

Charles N. Miller, Engineer
Audio Division
Media Bureau
