Re: Cox Radio, Inc.
WAGG(AM), Birmingham, Alabama
Facility Identification Number: 48717
File Number: BP-20110829ABW

Dear Applicant:

This letter refers to the above-captioned application for a minor modification of station WAGG(AM) to change daytime tower and operate non-directionally during nighttime.

A preliminary engineering review of the application reveals that the proposed nighttime operation would increase the existing 25% RSS limit of co-channel Class B station WIOD(AM), Miami, Florida, in contravention of Section 73.182 of the Commission's Rules. Specifically, the existing RSS limit for WIOD(AM) is 7.39 mV/m, and the proposal will increase the limit to 7.64 mV/m.¹

Accordingly, further action on the subject application will be withheld for a period of thirty (30) days from the date of this letter to provide you an opportunity to submit an amendment. Failure to amend or respond within this time period will result in the dismissal of the application pursuant to Section 73.3568. Please note that any amendment must be submitted in the same manner as the original application.

Sincerely,

Son Nguyen, Supervisory Engineer
Audio Division
Media Bureau

cc: Robert J. Folliard, Esq.
Matthew Folkert

¹ The existing limit of WIOD(AM) is comprised of 5.73 mV/m from NEW, Chaguanas TR, TD, 3.30 mV/m from WDAE, 2.67 mV/m from KILT, and 1.95 mV/m from KCSP.
