Re: Prescott Valley Broadcasting Co., Inc.
KPPV(FM), Prescott Valley, Arizona
Facility Identification Number: 53414
Special Temporary Authority

Dear Mr. Parthe:

This is in reference to the request filed November 30, 2011, on behalf of Prescott Valley Broadcasting Co., Inc. ("PVB"). PVB requests special temporary authority ("STA") to operate Station KPPV with temporary facilities.¹ For reasons which are discussed below, the request is dismissed.

In support of the request, PVB states that it intends to conduct testing of an FM Booster for potential interference with other equipment at the site, and to check the coverage provided by the booster. Our review indicates that, other than the site coordinates, no technical information was provided for the proposed STA operation. STA requests must be specific as to the technical details of the proposal; thus the instant request is unacceptable for filing.

Accordingly, the request for STA IS DISMISSED. This action is taken pursuant to 47 CFR Section 0.283. This action does not preclude PVB from filing a new request in compliance with the Commission's technical rules and our STA policies.

Sincerely,

Charles N. Miller, Engineer
Audio Division
Media Bureau

cc: Prescott Valley Broadcasting Co., Inc.

¹ KPPV is licensed for operation on Channel 294C2 (106.7 MHz) with effective radiated power of 3.7 kilowatts (H&V) and antenna height above average terrain of 493 meters.
