In re: Low Power Television Application of:
Paradise Valley TV District
Station: K19JM-D - Fac. ID 187426
Channel 19, Emigrant, MT.
File no.: BMPD TT-20111003ABX

Station: K27LO-D – Fac. ID 187425
Channel 27, Emigrant, MT.
File no.: BMPD TT-20111003AAA

Dear Applicant:

The applications as referenced above are dismissed.

The licensee was sent a deficiency letter on October 26, 2011. You were given 30 days from the date of that letter to file an amendment to resolve the deficiency that was discovered during the initial review of your application as shown below. Amendments must be filed electronically. Failure to amend your application will result in the dismissal of the application.

Specifically, the engineering specifications of the two modification proposals matches exactly the engineering specifications of each of the underlying construction permits they are intended to modify. The modification applications do not reflect any of the changes as indicated in exhibit 2 filed with each application except for the antenna rotation of 225 degrees and the simple emission mask.

Our records show that no amendment has been filed for either application referenced above as of November 8, 2011 to resolve the deficiencies.

Sincerely

Hossein Hashemzadeh
Deputy Chief
Video Division
Media Bureau
