Dear Applicant:

This letter refers to the above-captioned minor change application.

An engineering study reveals that the proposed transmitter site specified in the application fails to meet the minimum spacing requirements of 47 C.F.R. § 73.807. Specifically, the site proposed moves 2 kilometers closer to the already short-spaced co-channel vacant allotment for 267A at Barstow, CA.¹ The required spacing pursuant to § 73.807 is 56 kilometers.

In light of the above, application BPL-20111216AAE is unacceptable for filing and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

Edna V. Prado
