Re: First Broadcasting of Nevada, Inc. KXTO (AM), Reno, Nevada Facility Identification Number: 21530 Special Temporary Authority

Dear Counsel:

This is in reference to the request filed November 8, 2011, on behalf of First Broadcasting of Nevada, Inc. ("FBN"). FBN requests further extension of the special temporary authority ("STA") granted on July 23, 2010, to operate Station KXTO with reduced power.<sup>1</sup> In support of the request, FBN states that it has purchased a used transmitter, but that it has since discovered that the newly purchased transmitter requires the installation of replacement parts.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made progress toward restoration of licensed operation, but additional time is required for completing the work. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KXTO may continue to operate with reduced power. It will be necessary to further reduce power or cease operation if complaints of interference are received. FBN must notify the Commission when

<sup>&</sup>lt;sup>1</sup> KXTO is licensed for operation on 1550 kHz with 2.5 kilowatts daytime and 0.094 kilowatt nighttime, employing a nondirectional antenna (ND-2-U).

licensed operation is restored.<sup>2</sup> FBN must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on June 28, 2012.

Sincerely,

Charles N. Miller, Engineer Audio Division Media Bureau

cc: First Broadcasting of Nevada, Inc.
