Re: KXPC-FM, Lebanon, Oregon
Facility Identification Number: 61987
Educational Media Foundation
Special Temporary Authorization

Dear Counsel:

This is in reference to the request filed November 25, 2011, on behalf of Educational Media Foundation ("EMF"). EMF requests extension of the special temporary authority ("STA") granted on March 29, 2011, and modified on May 25, 2011, for operation of Station KXPC-FM with temporary facilities.¹ In support of the request, EMF states that its application, File No. BMPED-20110302ACD, remains pending.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that Construction Permit BMPED-20110302ACD was granted on January 24, 2012. Thus, the licensee has made substantial progress toward restoring licensed operation

¹ KXPC-FM is licensed to Lebanon, Oregon, for operation on Channel 279C (103.7 MHz) with effective radiated power ("ERP") of 90 kilowatts (H&V) and antenna height above average terrain ("HAAT") of 624 meters. Construction Permit BMPED-20110302ACD authorizes relocation of the station to Harrisburg, a downgrade to Class C0, relocation of the transmitter and operation with ERP of 100 kW and HAAT of 310 meters.

and extension of STA is warranted to allow time for construction of the newly authorized facilities.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KXPC-FM may operate with the following facilities:

Geographic coordinates:	44° 28' 59" N, 122° 34' 55" W (NAD 1927)
Channel	279 (103.7 MHz)
Effective radiated power:	1.45 kilowatts (H&V)
Antenna height:	
above ground:	26 meters
above mean sea level:	1233 meters
above average terrain:	729 meters

EMF must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **August 14, 2012**.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles N. Miller", with a long horizontal flourish extending to the right.

Charles N. Miller, Engineer
