Re: Venture Broadcasting LLC  
WQKR(AM), Portland, Tennessee  
Facility ID Number 6663  
File No. BP-20110711AAB

Dear Mr. Perry:

This is in reference to the above-captioned minor change application to change the transmitter site and antenna system for station WQKR(AM).

A preliminary review of the application reveals that measured conductivity data for co-channel Class D station WAIN(AM), Columbia, Kentucky, was not included. As a result, using M3 conductivity data we find that the proposed 0.5 mV/m and 0.025 mV/m contours would overlap the respective 0.5 mV/m and 0.025 mV/m contours of station WAIN(AM), in violation of Section 73.37(a) of the Commission's rules. In addition, the daytime site coordinates (36° 36' 39"; 86° 34' 36") do not match the nighttime site coordinates (36° 36' 39"; 86° 34' 56"). Finally, the transmitter site photos and site plat with ground system description must be submitted.

Further action on the subject application will be withheld for a period of thirty (30) days from the date of this letter to provide an opportunity to file an amendment to the application. Failure to amend or respond within this time period will result in the dismissal of the application pursuant to Section 73.3568 of the Commission's rules.

Sincerely,

Son Nguyen  
Supervisory Engineer
