Re: WLAY(AM), Muscle Shoals, Alabama
Facility Identification Number: 60611
Urban Radio Communications, LLC
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed December 15, 2011, on behalf of Urban Radio Communications, LLC ("URC"). URC requests extension of the special temporary authority ("STA") granted on June 29, 2011, to operate Station WLAY from a site other than the licensed site.¹ In support of the request, URC states that continues to seek a new site for the station.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has been prevented from restoring licensed operation due to causes beyond its control and has taken all possible steps to expeditiously resolve the problem. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WLAY may continue to operate with the following facilities:

Geographic coordinates: 34° 44' 13" N, 87° 42' 15" W (NAD 1927)

¹ WLAY is licensed for operation on 1450 kHz with 1 kW, unlimited hours, nondirectional (ND-1-U).

Frequency: 1450 kHz
Hours of operation: Unlimited
Operating power: Not to exceed 1 kilowatt
Antenna type: Long wire

It will be necessary to reduce power or cease operation if complaints of interference are received. URC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **September 2, 2012**.

Sincerely,

Charles N. Miller, Engineer
