> Re: Public Broadcasting of Colorado, Inc. KCFC (AM), Boulder, Colorado Facility Identification Number: 70405 Special Temporary Authority

Dear Counsel:

This is in reference to the request filed December 14, 2011, on behalf of Public Broadcasting of Colorado, Inc. ("PBC"). PBC requests extension of the special temporary authority ("STA") granted on June 22, 2011, to operate Station KCFC with temporary facilities.¹ In support of the request, PBC states that it has filed an application for permanent relocation of the station to the STA site concurrently with the STA extension request.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made substantial progress toward restoring licensed operation. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KCFC may continue to operate with the following facilities:

¹ KCFC is licensed for operation on 1490 kHz with 1 kilowatt daytime and 1 kilowatt nighttime, employing a nondirectional antenna (ND-1-U).

Transmitter site: Geographic coordinates Frequency Hours of operation Operating power Antenna type Radiator height Antenna efficiency Overall height ASRN Existing tower of Station KVCU(AM), Boulder, Colorado 39° 57′ 53″ N, 105° 14′ 07″ W (NAD 1927) 1490 KHz Unlimited Not to exceed 0.32 kilowatt Nondirectional 112.7° (63 meters) 320.4 mV/m/km/kW 65.7 meters 1033690

It will be necessary to further reduce power or cease operation if complaints of interference are received. PBC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on September 2, 2012.

Sincerely,

Charles N. Miller, Engineer Audio Division Media Bureau
