Subject: Amendment to WWJT-LD STA BSTA-20120106AAZ

Please amend STA BSTA-20120106AAZ as follows to match amended application BPDTL-20120306ABU

Tech Box:

7.9 Maximum Effective Radiated Power: 10 Kw
7.10 Transmitter Output Power: 1.655 Kw
7.11 Directional composite: X
Manufacture: SWR
Model: SWLP8NC/CP Special
Electrical Beam Tilt: 1 degrees
Rotation (Degrees): 90

Degrees	Value	Degrees	Value	Degrees	Value	Degrees	Value	Degrees	Value	Degrees	Value
0	1	10	0.97	20	0.92	30	0.835	40	0.675	50	0.525
60	0.375	70	0.28	80	0.23	90	0.2	100	0.19	110	0.19
120	0.2	130	0.22	140	0.24	150	0.27	160	0.28	170	0.285
180	0.29	190	0.285	200	0.28	210	0.27	220	0.24	230	0.22
240	0.2	250	0.19	260	0.19	270	0.2	280	0.23	290	0.28
300	0.375	310	0.525	320	0.675	330	0.835	340	0.92	350	0.97

Out-of-channel Emission Mask: Simple Stringent Full Service

The "extraordinary circumstances" for this modification of the STA is to bring it in compliance with FCC Rules and regulations in regard to interference. I have also attached a study showing compliance.

Please let me know if there is any additional information you need as the applicant would like to put in on the air ASAP.
