Western New Life, Inc.
BLH-20120322ADJ
Program Test Authority

Dear Applicant:

This letter is in reference to WNVE's request for program test authority ("PTA") filed March 22, 2012 and the simultaneously filed application for license to cover Construction Permit BMPH-20111117ATS. The PTA request included exhibits demonstrating compliance with special operating conditions regarding the directional antenna.

A review of WNVE's request for program test authority reveals that the facilities were constructed pursuant to the terms and conditions of Construction Permit BMPH-20111117ATS, and the provisions of 47 C.F.R. § 73.1690(c)(2). Accordingly, Program Test Authority IS HEREBY GRANTED to commence operation pending further action on WNVE's license application.¹ The maximum effective radiated power is 9.5 kilowatts and the transmitter power output is 3.3 kilowatts.

Sincerely,

Rodolfo F. Bonacci
Assistant Chief
Audio Division
Media Bureau

cc: Scott C. Cinnamon

¹ The license application is on hold pending the final outcome of MB Docket 08-243.
