Dear Applicant:

Within 30 days from the date of this letter, file an amendment to resolve the deficiency that was discovered during the initial review of your application. Amendments must be filed electronically. Failure to amend your application will result in the dismissal of the application.

Specifically, the antenna registration search using ASRN number 1006896 as indicated in the above referenced proposed construction permit revealed that the overall tower height above ground level is 133.2 meters; however, the overall tower height above ground level of the proposed construction permit is 138.6 meters which equals a proposed tower height increase of 5.4 meters which will require notification and new tower registration with the FAA.

Sincerely

Hossein Hashemzadeh
Deputy Chief
