Program Test Authority

Dear Applicant:

This letter is in reference to KTYC's request for program test authority ("PTA") filed April 23, 2011, and the above-captioned application for license to cover Construction Permit BMPED-20100421ACJ. The PTA application included exhibits demonstrating compliance with the special operating conditions regarding the directional antenna.

A review of KTYC's request for program test authority reveals that the facilities were constructed pursuant to the terms and conditions of Construction Permit BMPED-20100421ACJ, and the provisions of 47 C.F.R. § 73.1620. Accordingly, Program Test Authority IS HEREBY GRANTED to commence operation pending further action on KTYC's license application. The effective radiated power is 0.85 kilowatts (H&V) and the transmitter power output is 0.54 kilowatt.

Sincerely,

Rodolfo F. Bonacci
