Re: Entercom Wichita License, LLC
KFH (AM), Wichita, Kansas
Facility Identification Number: 53598
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed May 9, 2012, on behalf of Entercom Wichita License, LLC ("Entercom"). Entercom requests special temporary authority ("STA") to operate Station KFH with parameters at variance from the station's license.¹ For reasons which are discussed below, the request is dismissed.

In support of the request, Entercom states that the recent addition of an FM antenna to the KFH tower has resulted in a change in the tower's base impedance. Entercom requests STA until an application for direct measurement of power can be prepared, filed and processed.

Our review indicates that STA is unnecessary. Section 73.51(d) permits AM stations to operate via the indirect method of power determination on a temporary basis without specific authority from the Commission, provided that notations are made in the station log of the commencement and termination dates of indirect power determination. Because Station KFH employs a nondirectional antenna, there is no issue of directional antenna operating parameter tolerances. Station KFH should operate pursuant to Section 73.51(d) pending the filing of Form 302.

Accordingly, the request for STA IS HEREBY DISMISSED as moot.

Sincerely,

Charles N. Miller, Engineer
