Edward A. Shober, Chief Executive Manager Winchester Radio Broadcasters, LLC Box 367 Haddon Heights, New Jersey 08035

> Re: Winchester Radio Broadcasters, LLC WXVA (AM), Winchester, Virginia Facility Identification Number: 4668 Special Temporary Authority

Dear Mr. Shober:

This is in reference to the request filed May 9, 2012, on behalf of Winchester Radio Broadcasters, LLC ("WRB"). WRB requests modification and further extension of the special temporary authority ("STA") granted on March 30, 2011, to operate Station WXVA with temporary facilities.¹ In support of the request, WRB states that it has been granted License BL-20111129GCP, for new daytime facilities. WRB requests that its STA be modified to specify nighttime operation only.

Our review, based on the information provided, indicates that WRB has obtained a license for new daytime facilities, thus it has made substantial progress toward restoration of licensed operation, and extension of STA is warranted. As requested, the STA is modified to specify operation during nighttime hours only.

Accordingly, the request for modification and extension of STA IS HEREBY GRANTED. Station WXVA may continue to operate with the following facilities:

Geographic coordinates	39° 07′ 26″ N, 78° 12′ 44″ W (NAD 1927)
Frequency	610 KHz
Hours of operation	Nighttime hours only ²
Operating power	Not to exceed 0.125 kilowatt
Antenna type	Existing tower with folded unipole feed
Radiator height	57.3° (78.2 meters)

¹ WXVA is licensed for operation on 610 kHz with 0.38 kilowatt daytime and 0.5 kilowatt nighttime, employing a directional antenna during nighttime hours only (DA-N-U).

² Daytime operation will be conducted pursuant to License BL-20111129GCP. Operation between 6:00 a.m. and local sunrise may be conducted pursuant to the Pre-Sunrise Authority issued on December 27, 2011.

Overall height ASRN Antenna efficiency 79.7 meters 1025561 284 mV/m/km/kW

It will be necessary to further reduce power or cease operation if complaints of interference are received. It is anticipated that an application for construction permit to modify the nighttime facilities will be filed prior to the expiration date below. WRB must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on November 21, 2012.

Sincerely,

0

Charles N. Miller, Engineer Audio Division Media Bureau
