Re: Radio License Holding CBC, LLC
WKY (AM), Oklahoma City, Oklahoma
Facility Identification Number: 23418
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed April 12, 2012, on behalf of Radio License Holding CBC, LLC ("CBC"). CBC requests further extension of the special temporary authority ("STA") granted on January 25, 2011, to operate Station WKY with an emergency nondirectional antenna and reduced power.¹ In support of the request, CBC provides a report of its progress toward restoring licensed operation.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made substantial progress toward restoring licensed operation. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WKY may continue to operate with an emergency nondirectional antenna and reduced power not to exceed 5 kW daytime and 1.25 kW nighttime, as necessary to facilitate the transmitter plant relocation and

¹ WKY is licensed for operation on 930 kHz with 5 kilowatts daytime and 5 kilowatts nighttime, employing a directional antenna during nighttime hours only (DA-N-U).

the resolution of the antenna structural issues. Operation also is authorized during nighttime hours with parameters at variance and/or reduced power while maintaining monitor points within licensed limits. It will be necessary to further reduce power or cease operation if complaints of interference are received. CBC must notify the Commission when licensed operation is restored.² CBC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **November 22, 2012**.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles N. Miller".
