Re: WVNA(AM), Tuscumbia, Alabama
Facility Identification Number: 19457
Urban Radio Licenses, LLC
Special Temporary Authorization

Dear Counsel:

This is in reference to the request filed May 2, 2012, on behalf of Urban Radio Licenses, LLC ("URL"). URL requests further extension of the special temporary authority ("STA") granted on August 9, 2010, to operate Station WVNA with temporary facilities.¹ In support of the request, URC states that it continues the process of seeking a new, permanent site for the station.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made progress toward restoration of licensed operation, but additional time is required for completing the work. Thus, extension of STA is warranted.

¹ WVNA is licensed for operation on 1590 kHz with 5 kilowatts daytime and 1 kilowatt nighttime, employing a directional antenna during nighttime hours only (DA-N-U).

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WVNA may continue to operate with the following facilities:

Geographic coordinates:	34° 40' 27" N, 87° 42' 48" W (NAD 1927)
Frequency:	1590 kHz
Hours of operation:	Unlimited
Operating power:	Not to exceed 2 kW daytime, 0.25 kW nighttime
Antenna type	Existing FM tower with vertical wire feed
Radiator height:	87.8° (46 meters)
Antenna efficiency:	288.6 mV/m/km/kW
Overall height	46 meters

It will be necessary to reduce power or cease operation if complaints of interference are received. URC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **November 29, 2012**.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles N. Miller", with a stylized flourish at the end.
