Re: WYCS (FM), Yorktown, Virginia  
Facility Identification Number: 66672  
Creative Educational Media Corporation, Inc.  
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed May 10, 2012, on behalf of Creative Educational Media Corporation, Inc. ("CEMC"). CEMC requests further extension of the special temporary authority ("STA") granted on March 9, 2005, to operate Station WYCS with auxiliary facilities.<sup>1</sup> In support of the request, CEMC provides a detailed summary of its efforts toward finding a new, permanent site for the station.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has been prevented from restoring licensed operation due to causes beyond its control and has taken all possible steps to expeditiously resolve the problem. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WYCS may continue to operate with the following facilities:

---

<sup>1</sup> WYCS is licensed for operation on Channel 218B1 (91.5 MHz) with effective radiated power of 1.3 kilowatts (H), 20 kilowatts (V) and antenna heights above average terrain of 113 meters (H) and 101 meters (V).

Geographic coordinates: 37° 04' 41" N, 76° 26' 47" W (NAD 1927)  
Channel 218 (91.5 MHz)  
Effective radiated power: 4 kilowatts (V only)  
Antenna height:  
    above ground: 78 meters  
    above mean sea level: 87 meters  
    Above average terrain: 87 meters

CEMC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **December 1, 2012**.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles N. Miller". The signature is fluid and cursive, with a long horizontal stroke at the end.

Charles N. Miller, Engineer
