Request for Program Test Authority

Dear Permittee:

This letter is in reference to WLGO's request for program test authority ("PTA") filed June 12, 2012 and the simultaneously filed application for license to cover Construction Permit BMPED-20120424AAD. The PTA request included exhibits demonstrating compliance with special operating conditions regarding the directional antenna.

A review of WLGO's request for program test authority reveals that the directional antenna was constructed and installed pursuant to the terms and conditions of Construction Permit BMPED-20120424AAD, and the provisions of 47 C.F.R. § 73.1620. Accordingly, Program Test Authority IS HEREBY GRANTED to commence operation pending further action on WLGO's license application BLED-20120612ABQ. The effective radiated power is 3.2 kilowatts (H&V) and the transmitter power output is 2.60 kilowatts.

Sincerely,

Rodolfo F. Bonacci
Assistant Chief
Audio Division
Media Bureau
