Re: Capstar TX LLC  
WTXT(FM), Fayette, Alabama  
Facility Identification Number: 68418  
Special Temporary Authority

Dear Mr. Langham:

This is in reference to the request filed June 19, 2012, on behalf of Capstar TX LLC ("Capstar"). Capstar requests further extension of the special temporary authority ("STA") granted on May 5, 2011, to operate Station WTXT with temporary facilities.<sup>1</sup> In support of the request, Capstar states that it has resolved lease issues and installed foundations for the replacement tower, and that it is waiting for delivery and installation of the new tower.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made substantial progress toward restoring licensed operation; thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WTXT may continue to operate with the following facilities:

---

<sup>1</sup> WTXT is licensed for operation on Channel 251C1 (98.1 MHz) with effective radiated power of 100 kilowatts (H&V) and antenna height above average terrain of 276 meters.

Geographic coordinates: 33° 10' 30" N, 87° 33' 18" W (NAD 1927)  
Channel 251 (98.1 MHz)  
Effective radiated power: 5.7 kilowatts (H&V)  
Antenna height:  
    above ground: 119 meters  
    above mean sea level: 166 meters  
    above average terrain: 97 meters

Capstar must notify the Commission when licensed operation is restored. Capstar must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **December 20, 2012**.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles N. Miller", with a long horizontal flourish extending to the right.

Charles N. Miller, Engineer
