> Re: La Promesa Foundation WQHC(AM), Hanceville Alabama Facility Identification Number: 57437 File Number: BP-20120406AAI

Dear Applicant:

This letter refers to the above-captioned application for a minor modification of station WQHC(AM).

A preliminary review of the application reveals that the proposed theoretical RMS of 292 mV/m/kW at 1 kilometer is incorrect. Our calculation of the correct theoretical RMS is 260.4 mV/m as the (-)25.75 mV/m ground loss taken into account. We note that the minimum RMS of class D station is 282 mV/m/kW/km as specified in Section 73.189 of the Commission's rules.

Accordingly, further action on the subject application will be withheld for a period of thirty (30) days from the date of this letter to provide you an opportunity to respond. Failure to respond within this time period will result in the dismissal of the application pursuant to Section 73.3568 of the Commission's rules. Please note that any amendment must be submitted in the same manner as the original application

Sincerely,

Son Nguyen Supervisory Engineer Audio Division Media Bureau
