In re: New(FM), San Diego, TX
Texas Pelican Media ("TPM")
Facility ID No.: 174325
BNPED-20071022BAH

Dear Applicant:

This letter refers to the above-captioned application for a new noncommercial educational FM station to serve San Diego, Texas on Channel 216A.

This application was filed almost three years after the application (BPED-20041025AAE) for intermediate frequency (IF) channel FM Station KEKO(FM), Orange Grove, Texas (Facility ID. No. 85837) on Channel 269C1. Furthermore, TPM's application conflicted with KEKO's earlier filed application. Under the Commission's processing system, FM applications are processed on a first come/first served basis. Later filed applications are "held in queue" behind the first-filed or lead application.¹ If the lead application is granted, the queue is dissolved and the queue applications are dismissed; if the lead application is dismissed, then the first queue application (the application filed closest in time after the lead application) is processed.

KEKO's application (BPED-20041025AAE) was granted on July 24, 2012. Therefore, the first come/first served queue is dissolved. Accordingly, Application BNPED-20071022BAH, as a part of that queue, IS HEREBY DISMISSED.

Sincerely,

Arthur E. Doak

Arthur E. Doak
Senior Engineer
Audio Division
Media Bureau
