KBSZ(AM), Apache Junction, Arizona  
Facility Identification Number: 11217  
BP-20120406ABD

Dear Mr. Monahan:

This is in reference to the above-captioned application for Station KBSZ(AM) to increase daytime operating power.

A preliminary study of the application reveals that the proposed 0.025 mV/m daytime groundwave contour would overlap the 0.5 mV/m daytime groundwave contour of co-channel Mexican station XEMW, San Luis Rio Colorad, Sonora, in Mexican territory, in violation of the 1986 U.S./Mexican Agreement. It is noted that the ground conductivity measurements taken from KBSZ(AM) cannot be used in the groundwave study toward Mexican stations (See attached exhibit).

Further action on the subject application will be withheld for thirty (30) days from the date of this letter in order to provide an opportunity to file a curative electronic amendment. Failure to respond or file an amendment within this time period will result in the dismissal of the application pursuant to Section 73.3568 of the Rules.

Sincerely,

Son Nguyen  
Supervisory Engineer
