BLED-20120712ABW
Program Test Authority

Dear Applicant:

This letter is in reference to WSSU's request for program test authority ("PTA") filed July 12, 2012 and the simultaneously filed application for license to cover Construction Permit BPED-19971211MC, as modified by BMPED-20120131AHY. The PTA request included exhibits demonstrating compliance with special operating condition regarding the compliance with the FCC radiofrequency electromagnetic field exposure guidelines.

A review of WSSU's request for program test authority reveals that the facilities were constructed pursuant to the terms and conditions of Construction Permit BMPED-20120131AHY, and the provisions of 47 C.F.R. § 73.1690(c)(2). Accordingly, Program Test Authority IS HEREBY GRANTED to commence operation pending further action on WSSU's license application. The maximum effective radiated power is 950 watts (H&V) and the transmitter power output is 1.05 kilowatts.

Sincerely,

Rodolfo F. Bonacci
Assistant Chief
Audio Division
