Dear Applicant:

This refers to your attorney's letter dated August 20, 2012, for special temporary authority (STA) to operate at reduced effective radiated power (ERP). You indicate that the station is in process of relocating the transmitter equipment to the new location specified in construction permit (BPCDT-20110809AAQ). During the move and construction, it is necessary that WBFS operate from its licensed location at reduced power (682 kW ERP, 15 kW TPO). You state that reduced power operations will continue to be necessary while the applicant is in the process of completing construction.

In light of the above, special temporary authority pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules until February 22, 2013 IS GRANTED.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

Kevin R. Harding
