Re: Liberty University, Inc.  
WWMC(FM), Lynchburg, Virginia  
Facility Identification Number: 37248  
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed September 4, 2012, on behalf of Liberty University, Inc. ("LU"). LU requests further extension of the special temporary authority ("STA") granted on September 16, 2011, and modified on October 26, 2011, and March 5, 2012, to operate Station WWMC with temporary facilities.<sup>1</sup> In support of the request, LU states that additional time is required to locate a new, permanent site for the station.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made progress toward restoration of licensed operation, but additional time is required for completing the work. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WWMC may continue to operate with the following facilities:

---

<sup>1</sup> WWMC is licensed for operation on Channel 215A (90.9 MHz) with effective radiated power of 0.1 kilowatt (H&V) and antenna height above average terrain of 184 meters.

Geographic coordinates: 37° 21' 32" N, 79° 09' 32" W (NAD 1927)  
Channel 215 (90.9 MHz)  
Effective radiated power: 0.06 kilowatt (H&V)  
Antenna height:  
    above ground: 15 meters  
    above mean sea level: 420 meters  
    above average terrain: 185 meters

LU must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. It is anticipated that an application for construction permit for permanent relocation of the station will be filed prior to the expiration date below.

This authority expires on **March 14, 2013**.

Sincerely,

Charles N. Miller, Engineer
