Subject: KMBH-FM Engineering STA BESTA - 20121010AAA

Dear Mr. Bickel -

KMBH-FM in Harlingen, Texas recently filed a request to extend its engineering STA to be at temporary tower site while it's licensed site is being repaired from a hurricane in File No. BESTA - 20121010AAA. The site repairs were completed and the station went back on the air at its licensed site on October 14, 2012. Since then things seem to be working fine.

I do not see a way to amend the pending STA extension application to let the FCC know that service has been restored at the licensed site and I am not sure what other electronic filing form would apply. Please let me know what I should do to update this application.

Thank you,
Jim
