RE: License waiver for KRVM AM 1280 KHz for MDCL, AMC Mode at 4dB Compression

Attention: Ann Gallagher

We are requesting approval of a waiver to our license for Facilities ID: 54009, KRVM AM 1280 KHz, licensed to Lane County School District No. 4J, to operate our Nautel Model XR6 Analog+HD transmitter in the power saving MDCL mode. We are using the AMC mode of operation at 4 dB of Compression. In our tests, this mode has shown us to give us the best balance of sound and savings while still maintaining our operations both day and night on analog and HD within mask and with minimal noise and no detected interference.

Yesterday, we completed additional professional spectrum analysis proofs at both day and night power levels which showed us to be compliant and we will maintain these records on site and in our FCC files.

Please advise me if there is any other information I need to provide for this waiver.

Sincerely,

Gordon R. Larson, Jr.
